

3.3.1 en.html

Client: build v. **3.3.1.20051**

Server: build v. **3.3.1**

1. Additional Probing input signals added. This innovation makes it easy to connect a tool height sensor and other probing solutions.
2. The "Smart Burn" feature has been improved. Latency reduced, the overall speed of feature increased.
3. Minor bug fixes and improvements.
